

# Success by Grandell

## Meet Jorge Manzanilla

Jorge had an amputation due to vascular disease in June of 2009, but you would never know it because of the rehab he received at Grandell.

The rail/rehabilitation harness system in Grandell's Rehabilitation Gymnasium, the only one in New York State, is designed to help restore confidence to people with illnesses or injuries that have affected balance, standing and walking.

This special equipment eliminates the fear of falling so patients can achieve faster progress and results.

After only a short time at Grandell, Jorge is going home.

For further information or a tour call 516-889-1100 x301 or visit [www.grandellrehab.com](http://www.grandellrehab.com)  
Short-Term Rehab • Skilled Nursing • Long-Term Care • Secure Alzheimer's/Dementia Unit
